The following page will show you what happens when the hamburger menu is tapped.

A fresh new look that appeals to new and existing clients.

This scroll arrow indicates that more content is below.

This area is static and will not move on the home screen while you scroll through the options below.

You can rearrange the home screen blocks as you see fit. You are in control.

The settings are controlled via the "hamburger menu" in the top left of the screen.

Upon pressing the hamburger menu button from the home screen, the menu slides out from the left.

Push notifications will turn into messages to ensure your clients are always updated, even if they have their notifications disabled.

Space for social media icons here.

Settings for the app. Here, you can control the order of the blocks on the home screen.

As the menu slides out, the background will blur, to give focus to the menu options.

This will close the menu slide bar and take you back to your content.

Additional imagery has been added throughout the app for a stronger visual impact.

The share option enables you to share the content via email, message, save to iBooks, social media, PDF and more.

What we offer

We offer a wide range of accounting services to individuals, small businesses and startups, large organisations and charities.

Communicating with your clients

Your taxapp will be designed consistently with all of your existing marketing materials and website, so you can have a permanent and recognisable presence on your client's devices. We'll also integrate links to your social media accounts to continue the conversation online, and the option to call or email you at the touch of a button. All of your taxapp users can receive a message from you at any time with the use of push notifications. This enables you to notify them when there is an offer, event or news article available from your firm.
